

Hello John,

I wanted to take the time to communicate my appreciation for the work the PCD team has been doing for us in our Council Chamber and the Committee Room. We have been working closely with Christian and Gordon, and lately, Angelo. Everyone we interacted with, including the onsite staff, was a pleasure to work with. Angelo, especially, invested his attention in each of our requests onsite, and it certainly shows in the final product and is very much appreciated.

Our chamber looks excellent, and although there are a few outstanding items and testing remaining, we are excited to start hosting our public meetings in the newly renovated space next week. Thank you for PCD's partnership on this project and the continued attention provided to Milpitas as the project nears completion.

Thank you,

Daniel
